1 Introduction 1

2 Encouraging School Participation in Developing Countries: A Review 9

2.1 Introduction 9

2.2 Rigorous Evaluations 12

2.2.1 The Evaluation Problem 12

2.2.2 Identifying the Population Level Counterfactual 13

2.3 What Works? 17

2.3.1 Interventions Targeted at Pupils and Parents 20

2.3.2 Interventions Targeted at Schools and the School System 35

2.4 Scaling Up 42

2.4.1 Inefficiency and Corruption 43

2.4.2 General Equilibrium Effects: Social Stratification 44

2.5 What Results to Expect? 45

2.5.1 Skill Accumulation and Economic Benefits 46

2.5.2 Other Benefits 48

2.6 Cost Effectiveness and Conclusion 51

3 Girl Power: Conditional Cash Transfers and Female Empowerment 57

3.1 Introduction 57

3.2 Location, Experimental Design, and Intervention 61

3.2.1 Location 62

3.2.2 Sampling 62

3.2.3 Research Design and Intervention 62

3.2.4 Household Survey 65

3.3 Estimation Strategy 65
3.3.1 Attrition and Balance ........................................ 66
3.3.2 Specification .................................................. 68
3.4 Results ............................................................ 69
  3.4.1 Resources ..................................................... 69
  3.4.2 Social Changes ............................................... 71
  3.4.3 Well-being ................................................... 77
3.5 Conclusion and Discussion ...................................... 81

4 Income Shocks and Adolescent Mental Health ................. 85
  4.1 Introduction .................................................... 85
  4.2 Adolescent Mental Health ..................................... 88
  4.3 Mental Health Instrument ..................................... 89
  4.4 Estimation Strategy ............................................ 90
    4.4.1 Attrition and Balance .................................... 91
    4.4.2 Specification .............................................. 94
  4.5 Results ........................................................ 94
    4.5.1 Schooling ................................................ 94
    4.5.2 Basic Treatment Impacts on Mental Health ............. 95
    4.5.3 Heterogeneity of Program Impacts ....................... 104
    4.5.4 Spillover Effects ......................................... 107
    4.5.5 Channels ................................................ 109
  4.6 Conclusion .................................................... 111

5 Selective Schools and Education Decisions: Evidence from Malawi 121
  5.1 Introduction .................................................. 121
  5.2 Background ................................................... 125
    5.2.1 Basic Facts ............................................. 125
    5.2.2 Primary Education in Malawi ............................ 125
    5.2.3 Secondary Education in Malawi ......................... 125
    5.2.4 Examination ............................................. 128
    5.2.5 Selection ................................................ 129
  5.3 Methodology .................................................. 135
    5.3.1 Discontinuous Increase in Selection Probability ....... 135
    5.3.2 Continuous Increase in Selection Probability .......... 137
