

# Table of contents

Chapter 1	Introduction	7
Chapter 2	Three-dimensional ankle moments and nonlinear summation of rat triceps surae muscles	17
Chapter 3	No functionally relevant mechanical effects of epimuscular myofascial connections between rat ankle plantar-flexors	39
Chapter 4	Limited in vivo mechanical effects of intermuscular myofascial connections within rat anterior crural compartment	57
Chapter 5	Effects of epimuscular myofascial force transmission on sarcomere length of passive muscles in the rat hindlimb	73
Chapter 6	Does synergistic co-activation affect the extent of epimuscular myofascial force transmission between rat ankle plantar-flexors?	89
Chapter 7	Epilogue	101
