Chapter 1	General introduction	7
<b>PART 1     DIAGNOSTIC STUDY</b>		
Chapter 2	Systematic review of patient history and physical examination for diagnosing facet joint pain in patients with low back pain	23
<b>PART 2     COST-EFFECTIVENESS OF RADIOFREQUENCY DENERVATION</b>		
Chapter 3	Radiofrequency denervation for chronic low back pain (review)	43
Chapter 4	Cost-effectiveness of minimal interventional procedures for chronic mechanical low back pain: design of four randomised controlled trials with an economic evaluation	79
Chapter 5	Effectiveness and cost-effectiveness of radiofrequency denervation for chronic low back pain originating from the facet joints	97
Chapter 6	Effectiveness and cost-effectiveness of radiofrequency denervation for chronic low back pain originating from the sacroiliac joints	123
Chapter 7	Effectiveness and cost-effectiveness of radiofrequency denervation for chronic low back pain originating from from a combination of the facet joints, sacroiliac joints and/or discs	153
<b>PART 3     GENERALIZABILITY OF RANDOMISED CONTROLLED TRIALS</b>		
Chapter 8	Do randomised controlled trials reflect clinical practice? Comparing the course of low back pain symptoms in randomised study groups to observational study groups	187
Chapter 9	General discussion	210
	Summary   English	229
	Samenvatting   Nederlands	237
