

# Contents

<b>List of abbreviations</b>	3
<b>Chapter 1</b> General Introduction	7
<b>Chapter 2</b> Comprehensive two-dimensional liquid chromatography coupled to high resolution time of flight mass spectrometry for chemical characterization of sewage treatment plant effluents	23
<b>Chapter 3</b> Non-target analysis of household dust and laundry dryer lint using comprehensive two-dimensional liquid chromatography coupled with time of flight mass spectrometry	51
<b>Chapter 4</b> Miniaturization of a transthyretin binding assay using a fluorescent probe for high throughput screening of thyroid hormone disruption in environmental samples	71
<b>Chapter 5</b> Rapid screening of acetylcholinesterase inhibitors by effect-directed analysis using LC × LC fractionation, a high throughput in vitro assay and parallel identification by time of flight mass spectrometry	89
<b>Chapter 6</b> General discussion and outlook	113
<b>Summary</b>	121
<b>Samenvatting</b>	124
<b>Curriculum Vitae</b>	128
<b>List of publications</b>	129
