**CONTENTS**

**Chapter 1**  
Introduction 7

**Pathophysiology**

**Chapter 2**  
Mutation-specific effects on thin filament length in thin filament myopathy 25

**Chapter 3**  
Muscle histopathology in nebulin-related nemaline myopathy: ultrastructural findings correlated to disease severity and genotype 51

**Chapter 4**  
*In vivo* and *in vitro* investigations of heterozygous nebulin knock-out mice disclose a mild skeletal muscle genotype 79

**Chapter 5**  
New kelch on the NM block: elucidating the pathophysiology of NEM6 105

**Therapeutic targets**

**Chapter 6**  
Effect of levosimendan on the contractility of muscle fibers from nemaline myopathy patients with mutations in the nebulin gene 133

**Chapter 7**  
The fast skeletal muscle troponin activator, CK2066260, ameliorates weakness of mouse fast muscle fibers that are deficient in nebulin 155

**Chapter 8**  
Troponin activator augments muscle force in nemaline myopathy patients with nebulin mutations 177

**Chapter 9**  
Discussion, summary and future perspectives 203

**Chapter 10**  
Nederlandse samenvatting 217
