

TABLE OF CONTENTS

Chapter 1	General introduction and thesis outline	11
PART I	FIRST DIPG-SPECIFIC STUDIES CONDUCTED IN THE NETHERLANDS	
Chapter 2	A phase I/II study of gemcitabine during radiotherapy in children with newly diagnosed diffuse intrinsic pontine glioma <i>J Neurooncol. 2017 Jul 26 (Epub ahead of print)</i>	31
Chapter 3	Molecular drug imaging: ⁸⁹ Zr-bevacizumab PET in children with diffuse intrinsic pontine glioma <i>J Nucl Med. 2017;58(5):711–6</i>	49
Chapter 4	¹⁸ F-FDG PET standard uptake values of the normal pons in children: establishing a reference value for diffuse intrinsic pontine glioma <i>EJNMMI Res. 2014;4(1):8</i>	65
Chapter 5	Deceptive morphologic and epigenetic heterogeneity in diffuse intrinsic pontine glioma <i>Oncotarget. 2017;8:60447–52</i>	79
Chapter 6	Multiregional tumor drug-uptake imaging by PET and microvascular morphology in end-stage diffuse intrinsic pontine glioma <i>J Nucl Med. 2017 Aug 17 (Epub ahead of print)</i>	91
PART II	EXPANDING THE SCOPE: HISTORICAL AND INTERNATIONAL RESEARCH INITIATIVES	
Chapter 7	A twenty-year review of diagnosing and treating children with diffuse intrinsic pontine glioma in the Netherlands <i>Expert Rev Anticancer Ther. 2015;15(2):157–64</i>	107
Chapter 8	Effective drug delivery in diffuse intrinsic pontine glioma: A theoretical model to identify potential candidates <i>Front Oncol. 2017 Oct 11 (Epub ahead of print)</i>	123
Chapter 9	Palliative and end-of-life care for children with diffuse intrinsic pontine glioma: results from a London cohort study and international survey <i>Neuro Oncol. 2016;18(4):582–8</i>	139

Chapter 10	State of affairs in use of steroids in diffuse intrinsic pontine glioma: an international survey and a review of the literature <i>J Neurooncol. 2016;128(3):387–94</i>	159
Chapter 11	Survival prediction model of children with diffuse intrinsic pontine glioma based on clinical and radiological criteria <i>Neuro Oncol. 2015;17(1):160–6</i>	177
Chapter 12	External validation of the diffuse intrinsic pontine glioma survival prediction model <i>J Neurooncol. 2017;134(1):231–40</i>	195
Chapter 13	Commentary on “Histone <i>H3F3A</i> and <i>HIST1H3B</i> K27M mutations define two subgroups of diffuse intrinsic pontine gliomas with different prognosis and phenotypes” <i>Acta Neuropathol. 2016;131(5):793–4</i>	215
PART III A NEW ERA FOR DIPG RESEARCH: LARGE-SCALE, COLLABORATIVE STUDIES		
Chapter 14	Development of the SIOPE DIPG Network, Registry and Imaging Repository: a collaborative effort to optimize research into a rare and lethal disease <i>J Neurooncol. 2017;132(2):255–66</i>	223
Chapter 15	Clinical, radiological, histological, and genetic characteristics of long-term survivors of diffuse intrinsic pontine glioma: a collaborative report from the International and SIOPE DIPG Registries <i>Submitted</i>	245
Chapter 16	General discussion and future prospects	269
Chapter 17	English Summary	287
Chapter 18	Nederlandse samenvatting	297
	Acknowledgement / Dankwoord	307
	PhD portfolio	319
	Curriculum Vitae	323
	List of dissertations Brain Tumor Center Amsterdam	333
